Qualification Overview

The Ascentis Level 1 Award in Internet Safety for IT Users qualification is designed to give learners the knowledge and understanding of the basic principles of internet safety, including understanding the risks associated with using the internet, safeguarding self and others when working online, maintaining data security and following guidelines and procedures.

There are several features of this qualification that make it very appropriate for its target learners:

- Assessment and certification can be offered throughout the year, allowing maximum flexibility for centres
- Can be delivered either as a classroom-based course or as a blended learning programme
- Assessments are offered through an online multiple-choice test that is designed to be taken at the end of the course. Assessments can only be requested as a paper-based assessment where required as a reasonable adjustment
- There are online resources that can be used alongside the teaching

Aims

The aims of the qualification are to enable learners:

- To understand the risks that can exist when using the internet
- To understand how to safeguard self and others when working online
- To know how to maintain data security
- To follow guidelines and procedures which apply when working

Target Group

The qualification is aimed at a range of learners, including:

- Young people wishing to pick up an Award as part of another learning programme
- Young people aged 14 – 19 who are in various learning environments
